

Dropping Off the Edge - DOTE

Help us to learn about how the
Seaham-Woodville community
can thrive

We want to hear from Seaham-Woodville community members about what they think is important for a thriving area community

Project Description:

The study aims to identify what is needed within a community for that community to thrive. How does access to health and education services, the perceived safety of the community or the environment in which the community is situated, affect community outcomes? What can the government, community service providers and community members do to support improved community outcomes?

By listening to community members and local service providers, this study will provide an improved understanding of the factors and resources that contribute to positive social outcomes. This will guide the development of policy and programs that will target key community priorities.

More Information:

For more information on the project please contact Lynne Duckham at lynneduckham@gmail.com, 0416099878

Community Focus Groups:

These two focus groups with Seaham-Woodville community members will help us to understand what is important for Seaham-Woodville to thrive. Topics to be discussed will include:

- What does a strong and vibrant Seaham-Woodville community look like, and what helps or hinders it from achieving that outcome?
- What community services exist within the area, including gaps in services and challenges for service delivery?
- What activities, programs are valuable for supporting positive outcomes for Seaham-Woodville?
- What are the priorities for supporting Seaham-Woodville to thrive?

Focus Group 1: Date 27th May; Time TBC possibly 10.30am-12.00pm

Focus Group 2: Date 27th May; Time TBC suggest, 330 to 5pm or after work

Location: Woodville School of Arts???
location TBC Caterers TBC
